## **Inside out**

You're taking our words You turn them inside out You're stealing our words For something to write about

It's a secret joke to you To twist the facts all upside down Front page fallacy It's time you hear from me, yeah

We're gonna turn you - inside out You'll twist and turn - inside out It's time you learn - inside out Fear for your integrity

You can't hear What we're trying to say We're not marionettes It's our turn to play

Sitting on your throne of greed Trying to take our thoughts away, away Stand up for the cause Cause we're all here to stay, yeah

Inside out, inside out
Now it's a secret joke to you
To twist the facts around, around, around
Front page fallacy
It's time you hear from me

We're gonna turn you - inside out Turn you around - inside out It ain't like it sounds - inside out I'm the one who speaks for me

We're gonna turn you - inside out You'll twist and turn - inside out That is why I sing this song I know I'm right and you are wrong Inside out
