Ow!
C'mon!
(I bet you like lookin' down on me)

So you feel a little lonely girl Well you know you're used to that one Now the taste of sweet success
Is on your lips, you always want some

Picture perfect innocence
Behind a guard that she can't drop
She's been around the world
Now she's back on the top

She wants everything put in her lap Yeah she likes it on top She's in the right place

Though all along you knew it was wrong The taste of blood got to ya

Now everyone who's on your list You know they gotta do something for ya

Not a care at her expense She'll pay the piper when he stops She's been around the world Now she's back on the top

She cries herself to sleep at night It's not all it's cracked up to be She can't see, Yeah

She's a little lonely girl Gets her kicks on top of the world

(Well you sure look good from down here)

Picture perfect innocence She'll pay the piper when he stops She's been around the world Now she's back on the top
