

Blackout

Lillix

I'm walking down the street, I'm feeling kinda beat
From dragging myself to nowhere
Would you wanna hold my hand, No you wouldn't understand
Blame it on society, No ones good enough

I saw the sun die at blackout
All of you people watch out
Stay for the week and we can
Hide till it all blows over

I saw you yesterday but you turned the other way
How's the going should I say, yeah I know you know my name
Won't you come in for some tea, we can talk about the world
How it's all made up you see, who's lying?

I saw the sun die at blackout
All of you people watch out
Stay for the week and we can
Hide till it all blows over

Ri - se
We will Ri - se
Would you take me, mold me break me
No more faking, take me somewhere real
Where I can feel
Feel

I saw the sun die at blackout
All of you people watch out
Stay for the week and we can
Hide till it all blows over
I saw
