

# Promises

Lillix

It's been another day thinking what could have been  
It gets so hard  
But it's not what it seems  
What I wanted to be  
Did I try to hard  
Then I hoped for something much more  
Just before this you'll have to

Promise  
We won't fall apart  
Promise  
This right from the start  
Promise  
On heaven that you won't make believe  
Yeah e yeah e yeah  
Promise  
Me

I don't understand what I did wrong  
When the problem was you  
What do I say  
When everything is over  
Forget about you  
Then I hoped for something much more  
Just before this you'll have to

Promise  
We won't fall apart  
Promise  
This right from the start  
Promise  
On heaven that you won't make believe  
Yeah e yeah e yeah  
Promise me

What will tomorrow bring  
When desiding the truth  
It gets so hard  
But it's just a day  
When everything went wrong  
Relying on you

Thinking  
What did I  
Searching  
What to find  
Right now  
As I say you'll have to

Promise  
We won't fall apart  
Promise  
This right from the start  
Promise  
On heaven that you won't make believe  
Yeah e yeah e yeah

Promise  
We won't fall apart  
Promise  
This right from the start  
Promise  
On heaven that you won't make believe  
Yeah e yeah e yeah  
Promise me

Promise me...
