Sick

Lillix

I'm never going to be what you want to see
always got to be me and free
right or wrong
you'll be gone

Well I've heard it all before
and I'm tired of the lies I've tried
I won't compromise
You're a thousand miles away
draining under my flooded veins
take away the strain

I don't think that you know
I'm about to let you go
before I put you away
One more thing I've got to say

I'm not sorry
and I don't wanna worry
I'm sick of you again
I'm thinking no
I'm not sorry
and I don't wanna worry
Of falling behind
don't want to wonder and cry again
and I just want to say
Stop
Go on

I have thrown it all away
reaching over a cloudy day
and I'm on my way
Cast my shadows all aside
creeping over into the sky
shining brighter I feel alive

I don't think that you know
I'm about to let you go
before I put you away
One more thing I've got to say

I'm not sorry
and I don't wanna worry
I'm sick of you again
I'm thinking no
I'm not sorry
and I don't wanna worry
Of falling behind
don't want to wonder and cry again
and I just want to say

I'm never gonna be what you wanna see
always got to be me you're free
Carry on
run along
Frustrated by you, typical what you do
I'm tired and through, renew

```
Living on
With you gone

I don't think that you know
I'm about to let you go
before I put you away
One more thing I've got to say

I'm not sorry
and I don't wanna worry
I'm sick of you again
I'm thinking no
I'm not sorry
and I don't wanna worry
Of falling behind
don't want to wonder and cry again
and I just want to say

I'm not sorry
and I don't wanna worry
Of falling behind
don't want to wonder and cry again
and I just want to say
stop
go on
stop
go on

I'm never gonna be what you wanna see
always got to be me and free
Living on
With you gone
```
