

Through The Night

Lillix

Take a seat
Hear me out
These feet
Gotta cover ground
All alone
In the dark
Pick up the piece that fell apart

Start taking over
Instead of waiting
I won't stand for nothing
Contemplating here
When the music
Is tired of fading
I stand for something
Keep it playing
Through the night

Breaking in
Tearing down
All the walls
Built around
Time to feel
What it takes
I won't make
The same mistakes

Start taking over
Instead of waiting
I won't stand for nothing
Contemplating here
When the music
Is tired of fading
I stand for something
Keep it playing
Through the night
Through the night

I'm not letting go
I'm not caving in
I'm ready to blow
And you should know
You should know

I'm taking over
Instead of waiting
I won't stand for nothing
Contemplating here
When the music
Is tired of fading
I stand for something
Keep it playing
Through the night
Through the night
