

Let's Not Pretend

Lilly Wood & The Prick

I've been spending quite some time trying to fix the way I am
And chasing all the bad don't make it good
And when I was in jail, I've never trusted anyone
And try to change me now will get you noway
I tried to think of this knee
Chase to handle out and we
Trying to get along the way get noway
I tried to be polite and he juged to be nice
And it's all a big joke and I hate that

Let's not pretend
That things are easy to do
With a big smile on your face
You tried to see me through
Let's not pretend
It didn't happened that not true
With a big smile on your face
You tried to play me for a coal

You says things where tied
But I see them hanging on to us
Punch of wild lifes and holdback
There was *** time with us
Almost the weakest will crow out out
How stupid is that?
I tried to be smiling
Pretend that I'm strong
But I'm as weak as a jail, as weak as a jail
He says that he's finer
Word that wasn't a lie
How selfish is that?

Let's not pretend
That things are easy to do
With a big smile on your face
You tried to see me through
Let's not pretend
It didn't happened that not true
With a big smile on your face
You tried to play me for a coal

Let's not pretend
That things are easy to do
With a big smile on your face
You tried to see me through
Let's not pretend
It didn't happened that not true
With a big smile on your face
You tried to play me for a coal

Let's not pretend
That things are easy to do
With a big smile on your face
You tried to see me through
Let's not pretend
It didn't happened that not true
With a big smile on your face

You tried to play me for a coal
