

Three

Lily Allen

You say you're going, but you don't say how long for
You say it's work but I'm not sure
You say you love me when you walk right out the door
I'm left here wanting more

Of course there's lots of things I could be getting on with
I'm never short of things to do
This afternoon I made a paper maché fish mum
I made it just for you

Please don't go, stay here with me
It's not my fault, I'm only three
I'm only three, I'm only three
I'm only three, I'm only three
I'm only three

My social calendar is busier than yours
I've been out making lots of friends
You can't play with us, 'cause you're always off on tour
One day I'll hope you meet them

Please don't go, stay here with me
It's not my fault, I'm only three
I'm only three, I'm only three
I'm only three, I'm only three
I'm only three

When things feel black and white
We'll do some colouring in
When you want to play
When you want to play with me
When things feel black and white
We'll do some colouring in
When you want to play
When you want to play with me

Please don't go, stay here with me
It's not my fault, I'm only three
I'm only three, I'm only three
I'm only three, I'm only three
I'm only three

(da-da-da-da-da-da-da)
