

Like The Sun

Lily Kershaw

Don't hold me like I'm going
Don't look at me like I'm gone
Cause when it all comes down to it
We're all going like the sun

There is no time to ask for mercy
She left ages anyhow
And when it all comes down to it
In this silly world and it's crazy fit of life
We're all going somehow

And you say you believe in nothing
I know something believes in you
But still you rise every morning
Like the sun isn't going to have fun

I all comes down to it
We're all going like the sun

And when it all comes down to it
In this silly life it's crazy fit
The darkest night of the money pit
It all goes like the sun
It all goes like the sun
