

# Maybe

Lily Kershaw

Let me go  
Gravity gets us all  
Just thought you should know  
In tomorrow's morning light  
Things will look a lot less frightening  
And now, and now, and now...

Maybe, just maybe  
We could rewrite history  
Baby, I'm fading  
Oh I could use a little saving  
Maybe you could forget what I said  
And just hold me instead

So you let me go  
I guess I understand I was  
The one who told you to so  
The morning came  
Just to leave and nothing was ever the same  
The same, the same...

Maybe, just maybe  
We could rewrite history  
Baby I'm fading  
Oh I could use a little saving  
Maybe you could forget what I said  
And just hold me instead

Just hold me instead  
Just hold me instead

Maybe, just maybe  
We could rewrite history  
Baby I'm fading  
Oh I could use a little saving  
Maybe you could forget what I said  
And just hold me instead

Just hold me instead
