

# We All Grow Up

Lily Kershaw

Yes we all left  
We don't live here anymore  
Teenage tribulation  
Settled child hood scores  
And we gave hell to our parents  
We gave it to them good  
We left them with poor credit scores  
Then we left the neighborhood

Cause we all grow up  
We all move out  
And get out of our hometown  
We all get jobs  
Some break the law  
Some run their lives into the ground  
But I'll miss the days sneaking cigarettes  
Around the neighborhood  
Pretending that we were bad when  
Really we were good

Westward I went  
On the east you were hell bound  
I smoke cloves in orange grove  
And I miss the way things were  
When I was a little girl  
Dreams of things I hadn't seen  
The world was for the taking

But we all grow up  
We all move out  
And get out of our hometown  
We all get jobs some break the law  
Some run their lives into the ground  
But I'll miss the days sneaking cigarettes  
Around the neighborhood  
Pretending that we were bad when  
Really we were good

Yes we all left  
We don't live here anymore

Cause we all grow up  
We all move out  
And get out of our hometown  
We all get jobs  
Some break the law  
Some run their lives into the ground  
But I'll miss the days sneaking cigarettes  
Around the neighborhood  
Pretending that we were bad when  
Really we were good

Yes we all left  
We don't live here anymore
