

# Life Must Go On

Limahl

You whispered you love me  
You played the role so perfectly  
I trusted you and like a fool  
Believed every word you said was true

Another heartache another mistake  
One more experience  
But I have learned to forgive and forget  
No regrets, cause

Life must go on  
Even though you're gone  
Life must go on  
I guess what's done is done  
Life must go on  
Cause even though you're gone  
Life must go on

Baby we were the best  
The epitome of happiness  
But the autumn leaves have fallen down  
And the king has lost his golden crown

Another heartache another goodbye  
Another shattered dream  
I'll put it down to a lesson in love  
I believe that

Life must go on  
Even though you're gone  
Life must go on  
I guess what's done is done  
Life must go on  
Cause even though you're gone  
Life must go on

Yes I will survive  
And there'll be someone else  
It's just a matter of time

Life must go on  
Even though you're gone  
Life must go on  
I guess what's done is done  
Life must go on  
Cause even though you're gone  
Life must go on
