

# Love Is Blind

Limahl

Love is blind  
Blind is love

I've played the fool  
Too long now for you  
Take a last look at my face  
Yes, I've found someone to take your place

Goodbye lover  
Lover goodbye

Love is blind  
When you're torn between the truth and lies  
Love is blind  
And the truth is staring you right in the eye  
(Love is blind)  
Love is blind

By the rules we are bound  
And they say what goes, comes around  
There's no loss without gain  
And I've learned my lessons through the pain

Goodbye lover  
Lover goodbye

Goodbye lover  
Lover goodbye

Love is blind  
When you're torn between the truth and lies  
Love is blind  
And the truth is staring you right in the eye  
(Love is blind)  
Love is blind

Lover goodbye  
Lover goodbye  
Goodbye  
Goodbye

Love is blind  
When you're torn between the truth and lies  
Love is blind  
And the truth is staring you right in the eye  
(Love is blind)  
Love is blind  
Love is blind  
Love is blind
