

Love That Lasts

Limahl

Give me love that last forever
And stands the test of time
We will love that last forever
Shouldn't cost a dime
Give me love that last forever
Oh baby can't you hear me cry?
Give me love that last forever
Only you and I

I sit alone, remember this?
Wondering where you are
Your photographs is all I kiss
Why are we apart?
Something went wrong
And the magic slipped away
Something that was strong
We have got to try to say

Give me love that last forever
And stands the test of time
We will love that last forever
Shouldn't cost a dime
Give me love that last forever
Oh baby can't you hear me cry?
Give me love that last forever
Only you and I

I hear a voice inside my head
Whispering your name
Just like a drug I'm addicted to

You're running through my veins
But something went wrong
And a lesson we must learn
Something that was strong
Could be save if you return

Give me love that last forever
And stands the test of time
We will love that last forever
Shouldn't cost a dime
Give me love that last forever
Oh baby can't you hear me cry?
Give me love that last forever
Only you and I

Every night I dream of
Every day my heart breaks into
Every night I dream of you
Every day my heart breaks in two

Give me love that last forever
And stands the test of time
We will love that last forever
Shouldn't cost a dime
Give me love that last forever
Oh baby can't you hear me cry?

Give me love that last forever
Only you and I
