

# Working Out

Limahl

If there is ever a moment to be taken shy  
It's when I have to take off my clothes  
And so I've finally planned to get my act together  
In an effort to be put on show

So I'm working out  
To be a physical dream  
Working out  
Could even make the movie screen  
Working out  
To build up confidence  
Working out  
Because you know it makes sense

With the curves in their selective places  
I'll be a miracle of modern man  
And the body I see in the mirror  
Will be lost forever in my historic plan

So I'm working out  
To be a physical dream  
Working out  
Could even make the movie screen  
Working out  
To build up confidence  
Working out  
Because you know it makes sense

Sometimes nature will deliver right on time  
And my wish may finally come true  
So with a little bit of toning here and there  
From the glossy magazines I'll be facing you

So I'm working out  
To be a physical dream  
Working out  
Could even make the movie screen  
Working out  
To build up confidence  
Working out  
Because you know it makes sense

(spoken)

Young man have you ever appeared in a movie before  
The casting director is looking for someone just like you  
We may have to change your name of course  
And the contract could tie you up for the next five years  
Why don't you fly to Hollywood next week  
At home we call it Tinseltown

Let's do dinner  
Let's do dessert  
Let's do cocktails  
Have a nice day
