

## Your Love

Limahl

Feeling scared you ask of what  
Our special day and you forgot  
If loneliness is at the door  
There's nothing worth living for  
But your love

Oh how easy we forget  
And slip and slide till under threat  
So take some time to think of me  
I just need a little company  
From your love

Hold me I need to know  
Will you ever stop loving me  
Just hold me until I'm sure  
And I will feel secure with your love

Things will change as time goes by  
That's what you said and now I try  
To find exactly what went wrong  
I can feel the pull so strong  
From your love

Hold me I need to know  
Will you ever stop loving me  
Just hold me until I'm sure  
And I will feel secure with your love

Hold me I need to know  
Will you ever stop loving me  
Just hold me until I'm sure  
And I will feel secure with your love
