Limp Bizkit

Looks like I'm a do everything myself  
Maybe I could use some help but hell  
You want some done right  
You gotta do it yourself  
Maybe life is up and down  
But my life's been what 'til now  
I crawled up your butt somehow  
And that's when things got turned around  
I used to be alive  
I feel pathetic and now I get it  
What's done is done  
You just leave it alone  
And don't regret it but sometimes  
Some things turn into dumb things  
And that's when you put your foot down

Why did I have to go and meet somebody like you (like you)  
Why did you have to go and hurt somebody like me (like me)  
How could you do somebody like that (like that)  
Hope you know that I'm never coming back (never coming back)

Depending on you is done  
Giving to you is done  
No more eating, no sleeping, no living  
It's all just more giving to you  
And I'm done  
Depending on you is done  
And giving to you is done  
No more eating, no sleeping, no living  
It's all just more giving to you  
And I'm done  
The hiding from you is done  
The lying on you is done  
No more eating, no sleeping, no living  
It's all just more giving to you  
And I'm done
