

# No Sex

Limp Bizkit

Went too fast  
Way too soon.  
I feel disgusted and you should to.  
Its no good when all that's left is the sex.  
The sex.

Sex has become all I know about you.  
Memories of those filthy things that we do.  
There's not one single thought that is left  
After sex with you

Should've left my pants on this time,  
But instead you had to let me dive right in.  
Should've left my pants on this time.  
You let me dive right, you let me dive right in...  
Wait...  
Its my ass,  
Your perfume  
That make my temptation hard to refuse.  
So I guess  
We undressed to have sex...  
Dirty sex.

Sex has become all I know about you.  
Memories of those filthy things that we do.  
There's not one single thought that is left  
After sex with you

Should've left my pants on this time,  
But instead you had to let me dive right in.  
Should've left my pants on this time.  
You let me dive right, you let me dive right in...  
How could you respect yourself?  
You couldn't respect yourself cuz  
I didn't respect myself.  
I couldn't infect myself with....  
Realize that I'm worth more than that  
Realize that I'm worth more than that  
Realize that I'm worth more than that  
Realize that I mean more than that!!

Should've left my pants on this time,  
But instead you had to let me dive right in.  
Should've left my pants on this time.  
You let me dive right, you let me dive right in...  
How could you respect yourself?  
You couldn't respect yourself cuz  
I didn't respect myself.  
I couldn't infect myself with....  
Realize that I'm worth more than that  
Realize that I'm worth more than that  
Realize that I'm worth more than that  
Realize that I mean more than that!!

Should've left my pants on this time,  
But instead you had to let me dive right in.  
Should've left my pants on this time.

You let me dive right, you let me dive right in...
