

Shark Attack

Limp Bizkit

Another one of those days
Feeling like a shovel
With a lot of shit in the way
Gonna clear me a path
Right to the culprit
Straight to your fucked up past
This ain't about rage
It's about disrespect
You should've thought about that
Before your track went flat
Homie what the deal?
Why you talkin' shit like that?
I've had enough drama
I don't need a chump
Talkin' that trash in pajamas
Heated up like a sauna
Time to pay the piper
I ain't givin' hope like Obama
I'm spitting out flames
Better hit the deck
I'ma mic check them games
You don't need a new coach
You need a new neck
Once I connect with your throat

Still shockin' like a heart attack
Cause I'm a maniac (Cause I'm a maniac)
Still running through the shark attack
Without a single scratch (Without a single scratch)
Still limpin' where the dog is at
Up in my brainiac (Up in my brainiac)
Still bitin' while your barkin' back
So you can shut your trap

Check 1-2
I ain't even through
Givin you grief
Put another stain on your teeth
Back up on your feet
Call in the rescue
Better get the whole damn fleet
This attack ain't stealth
It's worldwide
Homicide bad for your health what
I'm going straight for the gut
Closing them minds
Sewing them lips straight shut
Go ahead put it on me
Show me what you got
Why you get robbed like a zombie
It's a one man army
Puff Puff give
Watch em get smoked like a cig
You heard of Freddy Kruger?
I'm kinda like that
With a red cap and a luger
Still slinging it to ya

Microphone hustler
Bad mother fucker
Screw you

Still shockin' like a heart attack
Cause I'm a maniac (Cause I'm a maniac)
Still running through the shark attack
Without a single scratch (Without a single scratch)
Still limpin' where the dog is at
Up in my brainiac (Up in my brainiac)
Still bitin' while your barkin' back
So you can shut your trap (just shut it)

Shut it down
Just shut it down
Swimming with sharks ain't easy
They just want to kill and eat me
I ain't gonna let that happen
Watch me plan my shark attack
Make them wish they never knew me
Turn their grey-white-ass to sushi
This is my old-school technique
It's all I need to lead them on peace

Still shockin' like a heart attack
Cause I'm a maniac (Cause I'm a maniac)
Still running through the shark attack
Without a single scratch (Without a single scratch)
Still limpin' where the dog is at
Up in my brainiac (Up in my brainiac)
Still bitin' while your barkin' back
So you can shut your trap

Shut it down
Just shut it down
Shut it down
Shut it down
