

Take a look around

Limp Bizkit

All the teachin' in the world today
All the little girls fillin' up in the world today
With the good comes the bad, the bad comes the good
but I'm a live my life like I should (like a should)
Now all the critics wanna hit it,
The shit can't ever dig it just because they don't get it
but I'll stay fit it, new era committed
now this red cap gets a rap from his critics

Do we always gotta cry (always gotta cry)
Do we always gotta live inside a lie (Live inside a, live inside a lie)
Life's just a blast (just a blast) that's moving really fast (really fast)
Better stay on top or life will kick you in the ass

Follow me into a solo
remember that, kid so what you wanna do?
and where you gonna run when you're staring down the cable
of the _ mic pointed at your grail like a gun
Limp Bizkit is rocking the set
It's like Russian roulette when you're placing your bet
so don't be upset when you broke and you're done coz'
I'm gonna be the one till I jet (till I jet)

I know why you wanna hate me I know why you wanna hate me
I know why you wanna hate me coz' hate is all the world has even seen lately
I know why you wanna hate me I know why you wanna hate me
now I know why you wanna hate me coz' hate is all the world has even seen la
tely
and now you wanna hate me coz' hate is all the world has even seen lately
and now you wanna hate me coz' hate is all the world has even seen lately

Does any body really know the secret
or the combination for this life and where they keep it
It's kinda sad when you dont know the meaning
but everything happens for a reason (everything happens for a reason)
I don't even know what I should say
coz' I'm an idiot a looser microphone abuser
I analyze every second I exist
beating up my mind every second with my fist
and everybody wanna run (wanna run)
everybody wanna hide from the gun (hide from the gun)
you can take the ride through this life if you want
but you cant take the edge of the knife (no sir)
and now you want your money back (money back)
but you're denied coz' you're brain fried from the sack
and there aint' nothin' I can't do coz' life is a lesson
you learn it when you're through.

I know why you wanna hate me I know why you wanna hate me
I know why you wanna hate me coz' hate is all the world has even seen lately
I know why you wanna hate me I know why you wanna hate me
now I know why you wanna hate me coz' hate is all the world has even seen la
tely
and now you wanna hate me coz' hate is all the world has even seen lately
and now you wanna hate me coz' hate is all the world has even seen lately
