

Which one do you want to be like  
and do you want to be liked by one of them  
What's wrong with the way you are now  
and is it hard to be the way you are

I know I've been through this before  
And so will you go through this you'll have your day  
Find out what you have on your mind  
And have a spine to stand up and choose your way

Not fair never will be for you  
not supposed to be that easy for us  
Try hard try to keep it in line  
and by the time you get it won't matter then

I know I've been through this before  
And so will you go through this you'll have your day  
Find out what you have on your mind  
And have a spine to stand up and choose your way

So long hope you have a good life  
Don't take advise from me or from anyone  
So long you're gonna fall on your face  
Just like I did and just like everyone
