

Clear Color

Limp

Which one do you want to be like
and do you want to be liked by one of them
What's wrong with the way you are now
and is it hard to be the way you are

I know I've been through this before
And so will you go through this you'll have your day
Find out what you have on your mind
And have a spine to stand up and choose your way

Not fair never will be for you
not supposed to be that easy for us
Try hard try to keep it in line
and by the time you get it won't matter then

I know I've been through this before
And so will you go through this you'll have your day
Find out what you have on your mind
And have a spine to stand up and choose your way

So long hope you have a good life
Don't take advise from me or from anyone
So long you're gonna fall on your face
Just like I did and just like everyone
