

Far Away

Limp

Far away and lost without you
Fate is cruel and brings me this
We are not deserving of this
You are there and I am nowhere near
The feeling I thought would go away
Has grown and is far past to late
And all I think about now is that You are there and I am nowhere near

Consolation I won't take it well
Nothin' else and no one qualifies
Consolation I won't take it well
Cause you are there and I am nowhere near

Here it is it's waiting for us
I sit alone and watch it go
I want it back so bad right now
Just one more time and then I let it go
Take me back I want to go
I want to see your face again
I want to die inside again
Just one more time and then I let it go

Consolation I won't take it well
Nothin' else and no one qualifies
Consolation I won't take it well
Cause you are there and I am nowhere near

And so it ends on promises
A bitter taste is in my mouth
And all I think about now is that Someone near is finding what I want
But I'm still here and you are nowhere near
