

On Our Side

Lincoln Brewster

Here in this moment
We find a mercy that's made new
Our fears we surrender
For all our hope is found in You

On Your word we stand
You're faithful to the end

We believe our God is on our side
Now and forever, now and forever
We believe our God is on our side
Now and forever, now and forever

Whoa-oh-oh
He's on our side, on our side
Whoa-oh-oh
He's on our side

Here in Your presence
We find the strength to live by faith
Through trials and failures
We know there's power in Your name

On Your word we stand
You're faithful to the end

We believe our God is on our side
Now and forever, now and forever
We believe our God is on our side
Now and forever, now and forever

Your love remains
God You have made a way
We are forever saved
Your love won't change
God You will stay the same
You will forever reign

We believe our God is on our side
Now and forever, now and forever
We believe our God is on our side
Now and forever, now and forever

Whoa-oh-oh
He's on our side, on our side
Whoa-oh-oh
He's on our side
