

Isn't That What You Told Her

Linda Davis

You tell me you've never loved anyone this way
And my willing heart is falling deeper
With every word you say
But it's so hard knowing

You're not even mine
She came along before my time
Though you promise we'll be
Together forever someday

Isn't that what you told her?
Isn't that what she believed?
Every night when you'd hold her
She was all you'd ever need

You swear that I'll be different
That you won't make me cry
Isn't that what you told her?
Now you're telling her goodbye

You tell me that your love like
A never ending river flows
But I just can't help but wonder
How deep that river goes

You say you'll love me till time is no more
But I know those words have been spoken before
You'll stand beside me
And I'll never be alone

Isn't that what you told her?
Isn't that what she believed?
Every night when you'd hold her
She was all you'd ever need

You swear that I'll be different
That you won't make me cry
Isn't that what you told her?
Now you're telling her goodbye
