

## Someone

Linda Eder

We all lose our way sometimes  
Get caught out in the rain  
Blue skies turn to grey sometimes  
We've all heard that refrain  
As long as there's someone

Who will take you as you are  
You'll never need a lucky star  
'Cause when someone's there who will listen  
One who'll care and just love you

You'll make it through  
And when there's a shoulder to cry on  
Someone you can rely on  
Be there too for that someone there for you

Everybody needs a friend  
Every now and then  
When you feel you're near the end  
Just remember when

Somebody held you in their  
Lovin' arms and then  
Helped you start over again  
'Cause when someone's there who will listen

Someone there who won't judge you  
One who'll care and just love you  
You'll make it through  
And when there's a shoulder to cry on

Someone you can rely on  
Be there too for that someone there for you  
When you're there for someone  
Someone's always there for you
