

Endless Days

Linda McCartney

Endless days and lonely nights, I cry out baby
When will you come back to me?
Gone away you wouldn't say the hurt I caused you,
When will you come back to me?
I've been waiting for you to call
But you just won't get back to me
Endless days and lonely nights
Are all that you give to me
Please come back, I beg you dear
Oh, come back, baby, when will you come back to me?
Gone away you wouldn't say the hurt I cause you,
When will you come back to me?
I don't believe things that I hear
They say you've changed
I don't believe them
I've been waiting for you to call
But you just won't get back to me
Endless days and lonely nights
Are all that you give to me
Endless days and lonely nights, I cry out baby
When will you come back to me?
Gone away I wouldn't say the pain you caused me
When will you come back to me?
I've been waiting for you to call
But you just won't get back to me
Endless days and lonely nights
Are all that you give to me
I don't believe things that I hear
They say you've changed
I don't believe them
