

Loves Full Glory

Linda McCartney

Far away, a distant love affair
Grew into something that was gentle and sentimental
And now I know that love has found full glory
Closer now, your love has warmed a heart
That could have frozen in these cold days
Where love is laughed at
Until You came to show me love's full glory
First of all my sadness
Warmed in the sunshine
When you came to show me that love will never die
Now I'm not so lonely
You are here beside me
Giving me the confidence that you alone can show
Take me home
Now at last I found you
You are here beside me
Sharing in the happiness that you alone can give
Now I'm not so lonely
You are here beside me
Giving me the confidence that you alone can show
Take me home
Far away, a distant love affair
Grew into something that was gentle and sentimental
And now I know that love has found full glory
Closer now, your love has warmed a heart
That could have frozen in these cold days
Where love is laughed at
Giving me the confidence that you alone can show
Take me home
Far away, a distant love affair
Grew into something that was gentle and sentimental
And now I know that love has found full glory
Closer now, your love has warmed a heart
That could have frozen in these cold days
Where love is laughed at...
