## Get It While You Can

Linda Perry

In early morning I'm still gettin high Counting my penny's like a desperate barfly See me and Jack Daniels stay up wide awake Counting the circles babe that compliment the lines on my face Baby, get it while you can Chasing ole smokey to pacify the shakes When your a loser babe You have to cure the pains and the aches Baby, get it while you can Hell is my heaven the devil stands right by my side There ain't no halo to hang above my life Baby, get it while you can In early morning as I'm sipping wine Will you still love me, baby through rain or shine Baby, get it while you can
