Bet No One Ever Hurt This Bad

Linda Ronstadt

Sit by my window watch the rain I hear it beatin' on my window pane All the troubles I had Bet no one ever hurt this bad

My baby left me all alone Wait for a letter sit by the phone It makes me so sad Cause no one ever hurt this bad

Since you went away I can't face the day Night brings nothing but pain I thought I could go on I see that I was wrong Baby please come home I just can't to be alone

Somebody somewhere hear my plea Send my baby home to me It would make me so glad Cause no one ever hurt this bad

Since you went away I can't face the day Night brings nothing but pain I thought I could go on I see that I was wrong Baby please come home Well I can't stand to be alone

Somebody somewhere hear my plea Send my baby home to me It would make me so glad Cause no one ever hurt this bad

Sit by my window watch the rain I hear it beatin' on my window pane Sit by my window watch the rain I hear it beatin' on my window pane
