

High Sierra

Linda Ronstadt

I've been higher than the high sierra
Lower than death valley must be
I've been right, mostly wrong
Wrong about you, right about me

The way I feel, can't explain
So much passion turned to pain
The sun still shines most of the time
Did you know the sun shines when it rains

I've been higher than the high sierra
Lower than death valley must be
I've been right, mostly wrong
Wrong about you, right about me

I've been cussed and I've been praised
And I've been nothing these days
I'll come back, time will see
If I'm wrong about you, right about me

I've been higher than the high sierra
Lower than death valley must be
I've been right, mostly wrong
Wrong about you, right about me
Wrong about you, right about me
Wrong about you, right about me
