I'll Be Your Baby Tonight

Linda Ronstadt

Close your eyes close the door You don't have to worry anymore I'll be your baby tonight

Shut the light shut the shade You don't have to be afraid I'll be your baby tonight

Well that mockingbird is gonna sail away We're gonna forget it Well that big fat moon is gonna shine like a spoon But we're gonna let it You won't regret it

Kick your shoes off do not fear Bring that bottle over here I'll be your baby tonight

Well that mockingbird is gonna sail away We're gonna forget it Well that big fat moon is gonna shine like a spoon But we're gonna let it You won't regret it

Kick your shoes off do not fear Bring that bottle over here I'll be your baby tonight
