

# It's About Time

Linda Ronstadt

It only seems like yesterday  
You got a restless look  
Said goodbye in the same old way  
Like I knew you would

You remember, do you remember  
Everything we said  
Promise made with a kiss for sure  
Like a book I read

It's about time you came back anyway  
It's been a long long time  
Been alone most every day  
You've been on my mind

I always wondered where you went  
To find some peace of mind  
You never seemed to give much thought  
To leaving me behind

You remember, do you remember  
Everything we said  
Promise made with a kiss for sure  
Like a book I read

It's about time you came back anyway  
It's been a long long time  
Been alone most every day  
You've been on my mind

It's about time you came back anyway  
It's been a long long time  
Been alone most every day  
You've been on my mind  
You've been on my mind
