

Mad Love

Linda Ronstadt

If I can't get away from you
What am I gonna do
Cause you hit me just like a dream
Where there's no in-between
Cause I just fall forever
Fall forever in your eyes

Cause it's a mad mad love
Mad mad love
Mad mad love
Can't help falling now
Falling into mad love

Well you're shorting out all my pride
Like fireworks exploding inside
You're just something I can't deny
Why tell me baby why
Cause I just fall forever
Fall forever in your eyes

Cause it's a mad mad love
Mad mad love
Mad mad love
Can't help falling now
Falling into mad love

If I can't get away from you
What am I gonna do
Now you call me up and you're so cool
What d'ya what do you want me to do

Cause it's a mad mad love
Mad mad love
Mad mad love
I can't help it
Mad mad love
Mad mad love
Mad mad love
Can't help falling now
Falling into mad love
