

Warm Feeling _ Lindisfarne

Lindisfarne

Sittin' by the fire glow,
Waitin' for my girl to show,
Feelin' the harmony grow.
I met her just the other day,
She has helped me find my way.
Feelin' the harmony grow.

I wish I had found her a long time ago.
Now, I don't need to wonder any more.

I get a warm feelin' when you're near me.
I get a warm feelin' when you're holdin' me.
I feel the love rushes hangin' round me,
Even when you're gone.

Been together so much more,
Than I've ever known before.
Feelin' the harmony grow.

I need her more than ever now,
It all seems so right, somehow.
Feelin' the harmony grow.

I never met anyone like her before,
Now all the rest don't matter anymore.

I get a warm feelin' when you're near me.
I get a warm feelin' when you're holdin' me.
I feel the love rushes hangin' round me,
Even when you're gone.

I get a warmin' feelin' at the mention of her name.
She's brought the sun in my life,
As she drove out all of the rain.

I get a warm feelin' when you're near me.
I get a warm feelin' when you're holdin' me.
I feel the love rushes hangin' round me,
Even when you're gone.

I get a warm feelin' when you're near me.
I get a warm feelin' when you're holdin' me.
I feel the love rushes hangin' round me,
Even when you're gone.
Even when you're gone.
Honey, when you're gone.

Feelin' the harmony grow.
Feelin' the harmony grow.
Feelin' the harmony grow.
Feelin' the harmony grow.
