Lindsay Lohan

There a good kind of pain
And insane kinda sane you
When I'm around you
When I'm around you

There a chill in the heat
Feel the sky at my feet cuz I adore you
I cant ignore you

R:
I'm not ill I don't need to
Take a pill to fix what you do
Cure can come through
Cuz baby all I do is suffer from
The symptoms of you

There is a left kinda right
There is a blind kinda sight
Looking at you
Looking at you
There is no light in the moon and its winter in June
When I'm without you

R:

And it trips me off my feet
I think I'm falling in too deep
Do you feel it too

R:

I'm not ill I don't need to
Take a pill to fix what you do
Cure can come through
Cuz baby all I do is suffer from
