

# Juniper

Lindsey Buckingham

Fathers and mothers all those years ago  
Did you ever did you ever know  
My sisters and my brothers all dead and gone  
Did you know that wishing won't make it so  
All the children flying down Juniper  
All going where children go  
All the children flying down Juniper  
Let us go

And did you ever wonder the places we would go  
And did you realize we felt our woe  
All the children flying down Juniper  
All going where children go  
All the children flying down Juniper  
Let us go

If we forgive ourselves we might be whole  
But you know that wishing wishing won't make it so  
All the children flying down Juniper  
All going where children go  
All the children flying down Juniper  
Let us go  
Let us go
