

# Shadow Of The West

**Lindsey Buckingham**

Dancing ever changing desert sand  
I was burned by the touch of her hand  
The setting of the sun sca2es me to death  
I'm a shadow shadow shadow of the west

Once upon a time I was strong and proud  
Everything that the law would allow  
But more and more I feel less and less  
I'm a shadow shadow shadow of the west

Memories like shadows scorched in the sand  
I'm alone, a lonely man  
The setting of the sun scares me to death  
I'm a shadow shadows shadow of the west
