

Underground

Lindsey Buckingham

Give us a song but don't live what you sing
Say what you mean but please don't mean a thing

I think I might wander underground
I think I might wander underground

They heard fifteen seconds and that was enough
The idea was new but the business was rough

I think I might wander underground
I think I might wander underground

I go to my lover we lay on our bed
Did I sell my heart for the dreams in my head?

I think I might wander underground
I think I might wander underground
