Underground

Lindsey Buckingham

Give us a song but don't live what you sing Say what you mean but please don't mean a thing

```
I think I might wander underground I think I might wander underground
```

They heard fifteen seconds and that was enough The idea was new but the business was rough

```
I think I might wander underground I think I might wander underground
```

I go to my lover we lay on our bed Did I sell my heart for the dreams in my head?

```
I think I might wander underground I think I might wander underground
```
