

When She Comes Down

Lindsey Buckingham

She is waiting
She is waiting
She is dreaming
She is dreaming

And we're all going to meet her
Yes we're all going to meet her
When she comes down
When she comes down

She is watching
She is watching
She is hoping
She is hoping

And we're all going to meet her
Yes we're all going to meet her
When she comes down
When she comes down

Now she's dancing
Now she's calling
Now she's laughing
Now she's falling

And we're all going to meet her
Yes we're all going to meet her
When she comes down
When she comes down
When she comes down
When she comes down
