

Hold My Heart

Lindsey Stirling

Don't need a hero to save me
I'm not a girl to set free
It's nothing you did to me
I've always been this way

I might be strong, I might be weak
There might be a part of me
That I won't let you keep
And on this road, I've come this far
I don't need a man to hold my hand
I just don't wanna hold my heart

(I just don't wanna hold my heart)

Don't be afraid to hold this
Even the thorns are roses
I won't have to stand alone
But I can live on my own

I might be strong, I might be weak
There might be a part of me
That I won't let you keep
And on this road, I've come this far
I don't need a man to hold my hand
I just don't wanna hold my heart

(I just don't wanna hold my heart)

Ooh, ooh
Want you to, want you to hold my heart
Want you to, want you to hold my heart
Want you to, want you to hold my heart
Want you to, want you to

Want you to, want you to hold my heart
Want you to, want you to hold my heart

Want you to
Want you to
Want you to
Want you to
Want you to
Want you to hold my heart

I might be strong, I might be weak
There might be a part of me
That I won't let you keep
And on this road, I've come this far
I don't need a man to hold my hand
I just don't wanna hold my heart

(I just don't wanna hold my heart)

I just don't wanna hold my heart
