

# Love's Just a Feeling

Lindsey Stirling

I wonder what I'm running from  
Stay inside and barricade the doors  
Miss the sun to avoid the storm  
Would do anything to feel the warmth  
I wonder where I'm going wrong

'Cause love's just a feeling  
Some kind of emotion  
When you need the healing  
When you're all broken  
Don't overthink it  
But for the moment live slowly  
'Cause love's just a feeling  
And right now I'm open, I'm open

I wanna fall like I won't hit the ground  
I wanna dance like nobody's around  
Walk on the edge and not look down  
Follow my heart and lose my head into the clouds  
It took a while but I'm here now

'Cause love's just a feeling  
Some kind of emotion  
When you need the healing  
When you're all broken  
Don't overthink it  
But for the moment live slowly  
'Cause love's just a feeling  
And right now I'm open, I'm open

I hold my hands up  
Afraid of so much  
It's time I let it all go  
Maybe I've lost touch  
In all the blind love  
I'm gonna let it all go

'Cause love's just a feeling

Don't overthink it

'Cause love's just a feeling  
Some kind of emotion

Don't overthink it  
But for the moment live slowly
