

Looking Back

Link 80

The rain has left now,
But the puddles still remain,
The one thing I know,
Is it'll never be the same again.
Your way of expressing your friendship with me,
Is a shotgun blast in my head.
All this bullshit, leaving me out,
It makes me wish that you were dead.
The rain has left now,
But the puddles still remain,
The one thing I know,
Is it'll never be the same again.
Looking back now at the stupid things we did,
And all those things that I wish I never said
Now we're stuck in a situation that's irreversible.
I wish we could go back in time,
But that's impossible
The rain has left now,
But the puddles still remain,
The one thing I know,
Is it'll never be the same again.
Looking back now at the stupid things we did,
And all those things that I wish I never said
