

# Halfway Right

Linkin Park

I scream at myself when there's nobody else to fight  
I don't lose, I don't win, if I'm wrong  
Then I'm halfway right

Used to get high with the dead-end kids,  
Abandoned houses where the shadows live  
I've never been higher than I was that night  
I woke up driving my car

I couldn't see then what I see right now  
The road dissolving like an empty vow  
Couldn't remember where I'd been that night  
I knew I took it too far

All you said to do was slow down  
I remember, now I remember  
All you said to do was slow down  
But I was already gone

I scream at myself when there's nobody else to fight  
I don't lose, I don't win, if I'm wrong  
and I'm halfway right  
I know what I want but it feels like I'm paralyzed  
I don't lose, I don't win, if I'm wrong  
Then I'm halfway right  
(Halfway right)

Told me kid, you're going way too fast  
You've burned too bright, you know you'll never last  
It was bullshit then, I guess it makes sense now  
I woke up driving my car

Said I'd lose you if I lost control  
I just laughed because what do they know  
Here I am standing all alone  
Because I took it too far

All you said to do was slow down  
I remember, now I remember  
All you said to do was slow down  
But I was already gone

I scream at myself when there's nobody else to fight  
I don't lose, I don't win, if I'm wrong  
Then I'm halfway right  
I know what I want but it feels like I'm paralyzed  
I don't lose, I don't win, if I'm wrong  
Then I'm halfway right  
Halfway right

(Na na na na...)

But I was already gone

I scream at myself when there's nobody else to fight  
I don't lose, I don't win, if I'm wrong  
Then I'm halfway right

(Na na na na)

But I was already gone

I scream at myself when there's nobody else to fight  
I don't lose, I don't win, if I'm wrong  
Then I'm halfway right
