

Got Body

Lion Babe

Just a woman with ass deluxe
A girl with more than a little
Big curves, big bones, honey skin tone
So clap, clap for this
I'm the one that you probably miss
I'm a lot to hold onto (oh yeah she is)
It came to me that
When I was young, I couldn't understand
What I was meant to be
Now I don't shy away
I turned out okay
And we all don't need one way to look good

I got body, no matter what I wear
I got body, no matter what I wear
I got body, no matter what I wear
I got body

Just a woman who's made to dance
A girl who shakes when she giggles
Gotta love all the people that I came from
So clap, clap for this
I'm the one that you notice
I'm a lot to get into (oh yeah she is)
They used to stare back
Lookin' at me, they couldn't handle it
That I was unique
Now I don't shy away
I turned out okay
And we all don't need one way to look good

I got body, no matter what I wear
I got body, no matter what I wear
I got body, no matter what I wear
I got body

If we don't love our bodies, trust ourselves
Just cause we hurt, we should be someone else
Don't shy away
You'll turn out okay
And we all don't need one way

I got body, no matter what I wear
I got body, no matter what I wear
I got body, no matter what I wear
I got body
