

# On the Rocks

Lion Babe

Lost in the feeling  
My head is spinning  
These eyes are sinning  
See you watching me  
Do you want the same thing?  
It's been a minute

Don't copy us  
Just fill my cup  
If you're sweet enough  
Then take a shot  
I like it, like it

I like it straight, like it smooth, on the rocks, baby  
See me move, come and groove, on the rocks, baby  
A different view, when I'm with you, on the rocks, baby  
I like it straight, like it smooth, on the rocks, baby  
See me move, come and groove, on the rocks, baby  
A different view, when I'm with you, on the rocks, baby

Round 3, you got me  
You melt my heartbeat  
I can't control it  
I taste the danger  
But I'm not a stranger  
Hand me your next move

Don't copy us  
Just fill my cup  
If you're sweet enough  
Then take a shot  
I like it, like it

I like it straight, like it smooth, on the rocks, baby  
See me move, come and groove, on the rocks, baby  
A different view, when I'm with you, on the rocks, baby  
I like it straight, like it smooth, on the rocks, baby  
See me move, come and groove, on the rocks, baby  
A different view, when I'm with you, on the rocks, baby

On the rocks, baby  
Now you know how I like it

I like it straight, like it smooth, on the rocks, baby  
See me move, come and groove, on the rocks, baby  
A different view, when I'm with you, on the rocks, baby  
I like it straight, like it smooth, on the rocks, baby  
See me move, come and groove, on the rocks, baby  
A different view, when I'm with you, on the rocks, baby
