

# Satisfy My Love

Lion Babe

Can I satisfy all that I want?  
Can I satisfy all that I want, baby?  
I'm looking for the one  
Yeah I've been lookin' round  
It's got me feeling down  
Won't you be the one who'll dance with me?  
You and I, what I realize  
I'm hypnotized, are we ever really settled?  
Is it even right to know?  
I don't wanna say that, I don't gotta say that

Can you satisfy me?  
Can you surprise me?  
Don't want it typical  
So what's your angle?  
Can you be the one  
Can you be the one?  
Out for me, out for me  
Can you satisfy me?  
Can you surprise me?  
Don't want it typical  
So what's your angle?  
Can you be the one  
Can you be the one  
Out for me, work it out for me

Can I satisfy all that I love?  
Can I satisfy all that I love, baby?  
Can you be the one  
Who's written in the stars  
And doesn't mind my scars?  
Someone who'll understand just what I need

Can you satisfy me?  
Can you surprise me?  
Don't want it typical  
So what's your angle?  
Can you be the one  
Can you be the one?  
Out for me, out for me  
Can you satisfy me?  
Can you surprise me?  
Don't want it typical  
So what's your angle?  
Can you be the one  
Can you be the one?  
Out for me? Work it out for me

Take me, take a piece of my heart  
I hope we fall in love  
Take me, take a piece of my heart  
I hope we fall in love, baby  
Is it over?  
Out for me, is it over?  
Out for me, is it over?

Can you satisfy me?

Can you surprise me?  
Don't want it typical  
So what's your angle?  
Can you be the one  
Can you be the one?  
Out for me, out for me
