

## Believe

Lion's Share

See you there on the corner  
Have nowhere to go  
All your dreams like a fading flower  
Fade away to die  
Now all your visions have left you  
All your hope is gone  
But I know it's not over If you just...

Believe  
Don't give up the fight  
You don't need to hide  
Believe  
And if you open up your mind you will receive  
(You've got to find a way)  
Don't give up the fight  
You can make it right  
Believe  
Cause only that will set you free.

Slipping in to the darkness  
There is no way out  
It all seems like a constant struggle  
Just to stay alive  
And though it seems like you've lost it  
You will find a way  
And I know it's not over If you just...

So open up your mind  
If you just believe.
