Don't Come Easy

Lion's Share

You know my love don't come easy i don't always see things clear some days laughter some days crying sometimes it feels all wrong

But i know we can't hide away from our love we still feel the same

You know we don't mean it what's been said and what's been done i know we still believe though it sometimes seems so hard it's more than a feeling that we can't erase by far you see it in my eyes girl that my love for you is true

Looking back at all the memories all the good times that we had i know we'll have them in the future if we only make amends

'cuz i know we can't hide away
from our love
we still feel the same

You know we don't mean it what's been said and what's been done i know we still believe though it sometimes seems so hard it's more than a feeling that we can't erase by far you see it in my eyes girl that my love for you is true

Now we know our love is sacred and together we'll be strong

You know we don't mean it what's been said and what's been done i know we still believe though it sometimes seems so hard it's more than a feeling that we can't erase by far you see it in my eyes girl that my love for you is true

You know our love don't come easy
